MICT Cloud: Hosted emails

It's hard to overstate the importance of effective email hosting for business. Despite the growth of video calling and encrypted communications platforms, email is still the default method of business communication. It's been calculated that over 300 billion emails are sent and received every day, and email is often the first channel your customers will use when they want to get in touch with you

Affordable and dependable email hosting is vital for the success of any business. At MICT, we know exactly what's required. Having decades of experience providing professional email hosting for companies of all sizes, from start-ups to corporate clients.

MICT hosted email: Reliable and affordable email hosting

When it comes to business communication, email remains a fundamental and widely-used method. With over 300 billion emails sent and received every day, it's crucial to have effective email hosting that is affordable and dependable. At MICT, we understand the importance of reliable email hosting, and we have decades of experience providing professional email hosting solutions for businesses of all sizes, from start-ups to corporate clients.

Why choose MICT hosted email over Microsoft 365?

There are three key reasons why MICT hosted email is a superior choice:

- **Cost-effectiveness:** Our hosted email system offers a lower cost per user compared to Microsoft 365.
- **Reliability:** With recent outages experienced by Microsoft, our hosted email system ensures a 99.9% uptime, providing a more reliable service.

- **Customisation:** MICT's hosted solution, built on Microsoft's own Exchange platform, offers greater flexibility and customisation options than standard MS 365 environments. We tailor the email solution to meet your specific requirements.

Key features of MICT hosted email

- **Full Outlook Compatibility:** Enjoy enterprise-level functionality with shared calendars, global address lists, tasks, and Activesync using Outlook Web App and mobile devices. Collaborate seamlessly across offices and locations.
- **POP3 / IMAP / SMTP:** Access your mailbox using industry-standard protocols like POP3, IMAP, and SMTP. Use popular email clients such as Outlook, Android, or Apple iOS devices.
- **Antispam and Antivirus:** Our email hosting includes advanced scanning for viruses, malware, and spam content, providing protection against threats and junk mail originating from your servers or clients.
- **Mobile Device Sync:** Synchronize your email, calendar, contacts, and notes across multiple devices using CALDAV and CARDDAV. Optional support for ActiveSync (EAS) and EWS.
- **UK Hosted & Supported:** Receive dependable support from our friendly UK-based team. We prioritize customer satisfaction and ensure experienced staff handle your queries and concerns.
